Reviewer notes : Gave feedback regarding some of the classes and how they were organized. Everyone agreed on changes and they were made.

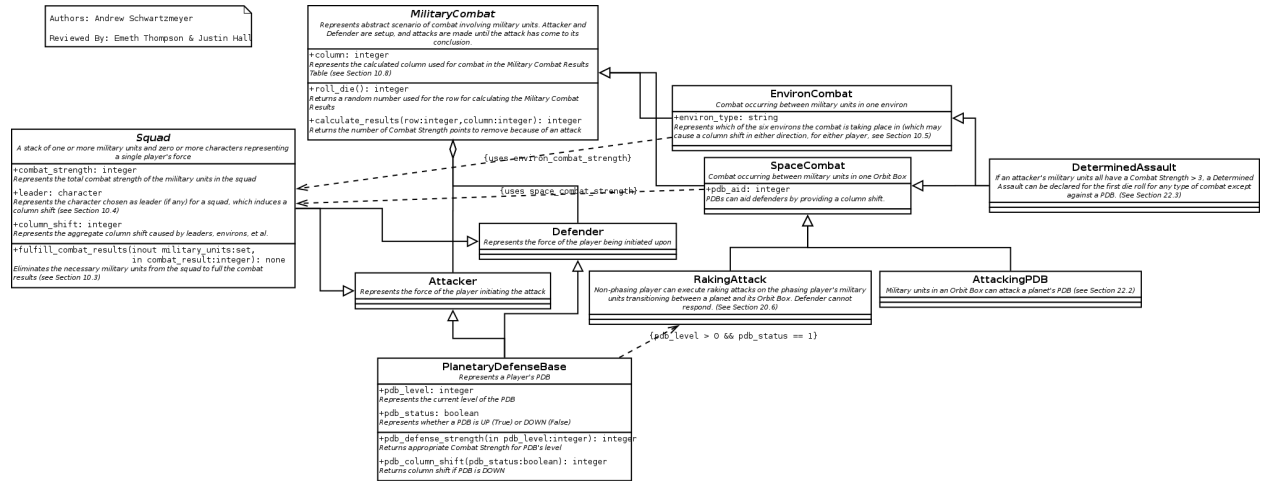

2.4 Military Combat and Military Units

Written by : Sam Foster, Andy Schwartzmeyer
 Reviewed by : Justin Hall, Emeth Thompson, Chris Waltrip
 Reviewer notes : The reviewers felt that what was done was not a class diagram, but more of an object/flow/activity diagram. This feedback was contested by one member and no changes have been made as of yet.

Reviewer notes : The diagram initially didn't use the correct diagrams, but was fixed promptly.

2.6 Resources and Taxation

Written by : Jordan Leithart, Tao Zhan, Shaung Wang
 Reviewed by : Justin Hall, Emeth Thompson, Chris Waltrip
 Reviewer notes : Initially looked great, but a subsequent review found issues at the last minute that wouldn't have had time to have been changed yet.
